This is VST ZERO!

Simply the lowest cost, easiest to install and operate clean air solution for the California EVR market today.

Unhappy with your current EVR Vacuum Assist System?

Problems with:

- Costly replacements of vapor pumps in your dispensers?
- Complex nozzles requiring A/L adjustments?
- Ongoing ISD alarms?
- Station shut downs?
- Expensive compliance testing?

VST ZERO is the simple solution for you.

VST ZERO is the combination of:

- Current EVR certified VST Balance hanging hardware
- Your existing Franklin Fueling Clean Air Separator (CAS)
- Approved In-Station Diagnostics (ISD) software: Either Veeder-Root or FFS (INCON)

VST ZERO advantages:

1. Meets CARB requirements
2. Lowest cost EVR approach
3. ZERO vapor pumps
4. ZERO electrical consumption (eliminates electrical demand for vapor pumps)
5. Substantially reduces compliance testing expenses
6. Substantially reduces maintenance expenses
7. ZERO modifications to balance dispensers

Executive Orders VR-203 (Non-ISD) VR-204 (ISD)
